

How to brand control panel and webmail

The logo displayed and page titles can be controlled via the Partner Portal

Log into the Partner Portal using your username and password.

If branding has been enabled on the account a Branding link will be visible in the left hand menu.

If you have more than one domain on your account you will be presented with a list of your domains. Pick the domain required.

The screenshot shows the Partner Portal interface. At the top, there is a header with the 'The Very Good Email Company' logo on the left and 'Log off | My account | Contact us' and 'Username: postmaster@apm-internet.net' on the right. The main title 'Partner Portal' is centered. Below the header, there is a left-hand menu with various links: Latest News, Service Alerts, Newsletters, Events, Partner Programme, Price Calculator, Sales & Marketing Collateral, Control Panel, Webmail, Support Collateral, Wishlist, Billing, User Management, Branding, and Contact Us. The 'Branding' link is highlighted. The main content area is titled 'Control panel & Webmail Branding'. It contains the text: 'There are 6 domains that are branded under your account. Please choose the domain name you wish to change the branding of from the list below.' Below this text is a list of domains: apm-internet.net, example.com, verygoodemail.com, vwm.apm-internet.net, web002.apm-internet.net, and web001.apm-internet.net.

Update

Web mail branding

Enter the page title for the site.

For custom graphic click the 'Pick image' button and select the image file required to upload.

The graphic file can be either JPEG, GIF or PNG format and a maximum size of 165 x 55 pixels.

If a custom graphic is not required then tick the 'Use default' box to use the default web mail graphic.

Control panel branding

Enter the page title for the site.

For custom graphic click the 'Pick image' button and select the image file required to upload.

The graphic file can be either JPEG, GIF or PNG format and a maximum size of 372 x 80 pixels.

If a custom graphic is not required then tick the 'Use default' box to use the default web mail graphic.

If a custom background is required tick the 'Use background graphic' then click the 'Pick image' button and select the image file required to upload.

The graphic file can be either JPEG, GIF or PNG format and a maximum height 80 pixels, the image will be repeated to fill the header.

If a custom graphic is not required then tick the 'Use default' box to use the default web mail graphic.

Once all changes have been made click the 'Update' button to save the details.
