USPs

- **Email plus Shared files, Calendars and Contacts Scaleable** - 5 to 5 million users (or more!)
- **Unbeatable price/performance** ratio
- **Simple set-up**
- **Powerful controls**
- **Multiple filtering layers**
- **Spam Digest -** daily reports for end users
- **Hybrid solutions** - mix and match basic (mailbox) and full mailboxes (mail, calendars, files, contacts)

Competitors

- **Zimbra** - MailCore Pro offers the core features of Zimbra but at a lower price point. Fully re-brandable - unlike Zimbra
- **GMail** - hosted email for consumers, concerns over security for business.
- **Microsoft Office 365** - Focus on Microsoft Office apps. Lower cost than Office 365.
- **In-House Server - MS Exchange** - expensive, needs onsite hardware + management and knowledge. Extra costs for mail filtering, not resilient.

Pros and Cons

Pros: It's not GMail!

Simple and efficient business collaboration platform with built in spam and virus filtering and huge file storage capability. File share globally with user/password protection.

Cons: Your customers don't get a nice shiny box to look at!
